## INDEPENDENT AUDITORS' REPORT

To the Shareholder of Highway 104 Western Alignment Corporation

We have audited the accompanying financial statements of Highway 104 Western Alignment Corporation, which comprise the statement of financial position as at March 31, 2013, the statements of earnings and deficit and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audits in accordance with Canadian generally accepted auditing standards. Those standards require that we comply with ethical requirements and plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Corporation's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Opinion*

In our opinion, the financial statements present fairly, in all material respects, the financial position of Highway 104 Western Alignment Corporation as at March 31, 2013, and its results of operations and its cash flows for the year then ended in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board.

# HIGHWAY 104 WESTERN ALIGNMENT CORPORATION

Notes to Financial Statements

Year ended March 31, 2013

---

## 1. Reporting entity

The Highway 104 Western Alignment Corporation (the "Corporation") is a company domiciled in Canada. The registered office is located at 1969 Upper Water Street, Halifax, in the Province of Nova Scotia. The Corporation has been established for the purpose of financing, designing, constructing, operating and maintaining a 45km stretch of highway (referred to as the Cobequid Pass) between Masstown and Thomson Station in the Counties of Colchester and Cumberland, Nova Scotia (the "Facility"). The Corporation has been designated a Government Business Enterprise in accordance with the Nova Scotia Provincial Finance Act. The Highway 104 Western Alignment Corporation Act, which authorizes the collection of tolls, states that toll collection will cease upon complete payment of all costs and liabilities relating to the Facility. This includes financing, design, construction, operation and maintenance, and any repair, improvement, replacement, alteration or extension. The forecasted repayment date of all cost and liabilities relating to the Facility is in 2019.

## 2. Basis of preparation

### (a) Statement of compliance

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

The financial statements were authorized for issue by the Board of Directors on June 12, 2013.

### (b) Basis of measurement

These financial statements have been prepared on the historical cost basis except for restricted assets that are measured at fair value through profit and loss.

### (c) Functional and presentation currency

These financial statements are presented in Canadian dollars, which is the functional currency for the Corporation.

### (d) Use of estimates and judgments:

The preparation of the Corporation's financial statements in conformity with IFRS requires the use of accounting estimates and management's judgment to determine the appropriate application of accounting policies. Estimates and assumptions are required to determine the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

# HIGHWAY 104 WESTERN ALIGNMENT CORPORATION

Notes to Financial Statements (continued)

Year ended March 31, 2013

---

## 2. Basis of preparation (continued)

Estimates and underlying assumptions are reviewed on an ongoing basis. Any revisions to accounting estimates are recognized in the period in which the estimate was revised and any future periods affected.

The following judgments and estimates are those deemed by management to be material to the Corporation's financial statements:

Judgments:

(i) Capitalization and componentization

Judgment is used when determining if components of a construction project are of a capital or repair nature and as to what components constitute a significant cost in relation to the total cost of an asset and whether these components have similar or dissimilar patterns of consumption and useful lives for purposes of calculating depreciation. Among other factors, these judgments are based on past experience, as well as information obtained from the Corporation's internal and consulting engineers.

Estimates

(i) Depreciation and amortization

Depreciation and amortization are calculated to write off the cost, less estimated residual value, of assets on a systematic and rational basis over their expected useful lives. Estimates of residual value and useful lives are based on past experience, as well as information obtained from the internal and consulting engineers. Expected useful lives and residual values are reviewed annual for any change to estimates and assumptions.

(ii) Debt repayment

The contractual maturities and estimated interest payments on the long-term debt outlined in note 9 are impacted by the estimates and assumptions regarding the forecasted repayment dates. In addition, the forecasted repayment date impacts the estimated useful life of the components of property, plant and equipment as outlined in note 3(b) as the useful life of each asset is based on the utility of each asset to the Corporation.

## 3. Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

(a) Financial instruments

The Corporation's financial instruments are comprised of the following:

# HIGHWAY 104 WESTERN ALIGNMENT CORPORATION

Notes to Financial Statements (continued)

Year ended March 31, 2013

## 3. Significant accounting policies (continued)

Financial instrument	Classification
Cash	Loans and receivables
Receivables	Loans and receivables
Restricted assets	At fair value through profit or loss
Accounts payable and accrued liabilities	Other financial liabilities
Long-term debt	Other financial liabilities

### (i) Financial assets

The Corporation initially recognizes loans and receivables and deposits on the date that they originate. All other financial assets (including assets designated at fair value through profit or loss) are recognized initially on the trade date at which the Corporation becomes a party to the contractual provisions of the instrument.

The Corporation derecognizes a financial asset when the contractual rights to the cash flows from the asset expire, or it transfers the rights to receive the contractual cash flows on the financial asset in a transaction in which substantially all the risks and rewards of ownership of the financial asset are transferred. Any interest in transferred financial assets that is created or retained by the Corporation is recognized as a separate asset or liability.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Corporation has a legal right to offset the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

#### *Financial assets at fair value through profit or loss*

A financial asset is classified at fair value through profit or loss if it is held for trading or is designated as such upon initial recognition. Financial assets are designated at fair value through profit or loss if the Corporation manages such investments and makes purchase and sale decisions based on their fair value in accordance with the Corporation's documented risk management or investment strategy. Upon initial recognition, attributable transaction costs are recognized in profit or loss when incurred.

#### *Loans and receivables*

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition loans and receivables are measured at amortized cost using the effective interest method, less any impairment losses.

# HIGHWAY 104 WESTERN ALIGNMENT CORPORATION

Notes to Financial Statements (continued)

Year ended March 31, 2013

---

## 3. Significant accounting policies (continued)

### *Cash*

Cash includes cash on hand, balances with banks and short-term deposits with original maturities of three months or less.

### (ii) Financial liabilities

The Corporation initially recognizes debt securities issued and subordinated liabilities on the date that they originated. All other financial liabilities are recognized initially on the trade date at which the Corporation becomes a party to the contractual provisions of the instrument.

The Corporation derecognizes a financial liability when its contractual obligations are discharged, cancelled or expire.

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Corporation has a legal right to offset the amounts and intends either to settle on a net basis or to realize the assets and settle the liability simultaneously.

### (iii) Other financial liabilities

Other financial liabilities are recognized initially at fair value plus any directly attributable transaction costs. Subsequent to initial recognition these financial liabilities are measured at amortized cost using the effective interest method.

### (iv) Share capital

#### *Common shares*

Common shares are classified as equity.

## (b) Property, plant and equipment

### (i) Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

# HIGHWAY 104 WESTERN ALIGNMENT CORPORATION

Notes to Financial Statements (continued)

Year ended March 31, 2013

---

### 3. Significant accounting policies (continued)

Cost includes expenditures that are directly attributable to the acquisition of the asset. The cost of self-constructed assets includes the cost of materials and direct labour, any other costs directly attributable to bringing the assets to working condition for their intended use, the costs of dismantling and removing the items and restoring the site on which they are located. Borrowing costs related to the acquisition, construction or production of qualifying assets are capitalized as a part of the asset.

When the parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

An item of property, plant and equipment is derecognized upon disposal or when no economic benefits are expected to arise from the continued use of the asset.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment, and are recognized net within other income in profit or loss.

#### (ii) Repairs and maintenance

Repairs and maintenance costs are charged to expense as incurred, except when these repairs significantly extend the life of the asset or result in an operating improvement. In these instances the portion of these repairs relating to the betterment is capitalized as part of plant and equipment.

#### (iii) Depreciation

Depreciation is calculated over the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is recognized in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. This method of depreciation most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset.

The estimated useful lives for the current period are as follows:

- |                                  |              |
|----------------------------------|--------------|
| • Highway and surface treatments | 6 years      |
| • Tolling system                 | 3 to 9 years |
| • Toll plaza structure           | 13 years     |
| • Other assets                   | 10 years     |

# HIGHWAY 104 WESTERN ALIGNMENT CORPORATION

Notes to Financial Statements (continued)

Year ended March 31, 2013

---

### 3. Significant accounting policies (continued)

The Highway 104 Western Alignment Corporation Act, which authorizes the collection of tolls, states that toll collection will cease upon complete payment of all cost and liabilities relating to the facility. As such, the useful life of each asset is estimated based on the utility of each asset to the Corporation.

#### (c) Impairment

##### (i) Financial assets (including receivables)

A financial asset not carried at fair value through profit or loss is assessed at each reporting date to determine whether there is objective evidence that it is impaired. A financial asset is impaired if objective evidence indicates that a loss event has occurred after the initial recognition of the asset, and that the loss event had a negative effect on the estimated future cash flows of that asset that can be estimated reliably.

Objective evidence that financial assets are impaired can include default or delinquency by a debtor, restructuring of an amount due to the Corporation on terms that the Corporation would not consider otherwise, indications that a debtor or issuer will enter bankruptcy, or the disappearance of an active market for a security.

The Corporation considers evidence of impairment for receivables at both a specific asset and collective level. All individually significant receivables and held-to-maturity investment securities are assessed for specific impairment. All individually significant receivables found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Receivables that are not individually significant are collectively assessed for impairment by grouping together receivables with similar risk characteristics.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as the difference between its carrying amount and the present value of the estimated future cash flows discounted at the asset's original effective interest rate. Losses are recognized in profit or loss and reflected in an allowance account against receivables. Interest on the impaired asset continues to be recognized through the unwinding of the discount. When a subsequent event causes the amount of impairment loss to decrease, the decrease in impairment loss is reversed through profit or loss.

# HIGHWAY 104 WESTERN ALIGNMENT CORPORATION

Notes to Financial Statements (continued)

Year ended March 31, 2013

---

## 3. Significant accounting policies (continued)

### (ii) Non-financial assets

The carrying amounts of the Corporation's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The Corporation consists of a single CGU (cash generating unit), as the Corporation's assets do not generate separate cash inflows.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the CGU.

An impairment loss is recognized if the carrying amount of the CGU exceeds its estimated recoverable amount. Impairment losses are recognized in profit or loss.

Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the CGU's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

### (d) Facility revenue

Facility revenue is recognized at the time a vehicle utilizes the highway. Provincial subsidies, net of rebates, are recognized as facility revenue per the First Amendment to the Omnibus Agreement.

### (e) Government grants

Government grants are recognized initially as deferred income at fair value when there is reasonable assurance that they will be received and the Corporation will comply with the conditions associated with the grant. Grants that compensate the Corporation for expenses incurred are recognized in profit or loss on a systematic basis in the same periods in which the expenses are recognized. Grants that compensate the Corporation for the cost of an asset are deferred and amortized to operations over the expected project life or useful life of the asset commencing at the start of the operating period using the straight-line method.

# HIGHWAY 104 WESTERN ALIGNMENT CORPORATION

Notes to Financial Statements (continued)

Year ended March 31, 2013

---

### 3. Significant accounting policies (continued)

(f) Finance income and finance costs

Finance income comprises interest income on funds invested, and changes in the fair value of financial assets at fair value through profit or loss. Interest income is recognized as it accrues in profit or loss, using the effective interest method.

Finance costs comprise interest expense on borrowings and changes in the fair value of financial assets at fair value through profit or loss. Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognized in profit or loss using the effective interest method.

(g) New standards and interpretations not adopted:

The International Accounting Standards Board (“IASB”) and International Financial Reporting Interpretation Committee (“IFRIC”) issued the following standards that have not been applied in preparing these financial statements as their effective dates fall within annual periods beginning subsequent to the current reporting period. This listing is of standards and interpretations issued which the Corporation reasonably expects to be applicable at a future date. The Corporation intends to adopt these standards when they become effective. The extent of the impact of these standards on the financial statements has not been determined.

IFRS 9, Financial Instruments, proposes to replace IAS 39 Financial Instruments: Recognition and Measurement. The replacement standard has three main phases, the first of which provides new guidance for the classification and measurement of financial assets and liabilities, including elimination of the existing IAS 39 categories of held-to-maturity, available-for-sale and loans and receivables, in exchange for the classification of financial assets and liabilities into the categories of either financial assets measured at amortized cost or financial assets measured at fair value. The second part, which is currently an exposure draft, provides guidance for amortized cost and impairment methodology for financial assets. The third part, which is also currently an exposure draft, proposes a revised general hedge accounting model. The standard will become effective for the March 31, 2016 year end. The Corporation will evaluate the impact of the change to its financial statements based on the characteristics of financial instruments anticipated to be outstanding at the time of adoption.

IFRS 13, Fair Value Measurement, is a single source of fair value measurement guidance under IFRS. This new IFRS clarifies the definition of fair value, provides a clear framework for measuring fair value, and enhances the disclosures about fair value measurements. IFRS 13 is not only limited to financial instruments, but also applies to fair value measurement in other IFRS, such as impairment and employee future benefits. The standard is effective for the March 31, 2014 year-end. The application of this standard is not expected to have a material impact on the Corporation’s financial statements.

## 6. Restricted assets (continued)

The following restricted accounts have been established in accordance to trust indenture agreements between the Corporation and the senior and junior bondholders and an Omnibus Agreement between the Corporation and Province of Nova Scotia:

- (i) The capital reserve account has been established to provide funds to pay the interest and principal on the senior and junior bonds and the subordinated notes. These funds are also available to pay the trustee and bondholders' representative fees to the extent they are not paid out of the project account. This account provides funding to the major maintenance reserve and the senior debt reserve accounts. The capital reserve account is funded from excess funds transferred from the project bank account of the Corporation.
- (ii) The major maintenance reserve account has been established for the purpose of paying major maintenance repair and rehabilitation expenses. This reserve is funded from the capital reserve account in accordance with a maintenance budget recommended by the Independent Engineer through the terms of the major maintenance reserve fund agreement.
- (iii) The debt service reserve account has been established to provide a reserve of funds to be available for payments as they come due for the senior toll revenue bonds. Funds can only be transferred from this fund when funds in the capital reserve accounts are insufficient to pay senior toll revenue bond payments. The account should maintain sufficient reserves equal to 12 months principal and interest payments due on the senior toll revenue bonds. The replenishment of the reserve comes from the capital reserve account.

Notes to Financial Statements (continued)

Year ended March 31, 2013

## 8. Accounts payable and accrued liabilities

	2013	2012
Trade payables	\$ 1,625,375	\$ 506,737
Accrued expenses	59,149	48,485
	<b>\$ 1,684,524</b>	<b>\$ 555,222</b>

## 9. Long-term debt

This note provides information about the contractual terms of the Corporations interest-bearing loans and borrowings, which are measured at amortized cost and denominated in Canadian dollars.

	Nominal interest rate	Year of maturity	Face value	2013 Carrying amount	Face value	2012 Carrying amount
Senior toll revenue bonds	10.251%	2026	\$51,000,000	\$50,490,260	\$51,000,000	\$57,332,694

	2013	2012
Senior toll revenue bonds carrying amount	\$ 50,490,260	\$ 57,332,694
Deferred finance fees	(121,753)	(146,105)
	50,368,507	57,186,589
Current portion of long-term debt	1,965,719	1,949,845
	<b>\$ 48,402,788</b>	<b>\$ 55,236,744</b>

The senior toll revenue bonds are secured by a first charge and security interest over all the present and future property and assets, including rights to operate the facility, a security interest in the debt service reserve account and the major maintenance reserve account. In addition, the Province of Nova Scotia has provided a guarantee of the bonds.

## 13. Financial risk management

### Overview

The Corporation has exposure to the following risks from its use of financial instruments:

- Credit risk
- Liquidity risk
- Market risk
- Operational risk

This note presents information about the Corporation's exposure to each of the above risks, its risk management framework and the Corporation's management of capital. Further quantitative disclosures are included throughout these financial statements.

### Risk management

Management has overall responsibility for the establishment and oversight of the Corporation's risk management framework.

The Corporation's policies are established to minimize the risks faced by the Corporation, to set appropriate controls and to monitor risks. Management policies and systems are reviewed regularly to reflect changes in market conditions and the Corporation's activities. The Corporation, through its management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

### Operational risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Corporation's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behavior. Operational risks arise from all of the Corporation's operations.

The Corporation's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Corporation's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to senior management. This responsibility is supported by the development of overall Corporation standards for the management of operational risk in the following areas:

# HIGHWAY 104 WESTERN ALIGNMENT CORPORATION

Notes to Financial Statements (continued)

Year ended March 31, 2013

---

## 13. Financial risk management (continued)

- requirements for appropriate segregation of duties, when possible
- requirements for the reconciliation and monitoring of transactions
- compliance with regulatory and other legal requirements
- documentation of controls and procedures
- development of contingency plans
- training and professional development
- ethical and business standards
- risk mitigation, including insurance when this is effective.

### Credit risk

Exposure to credit risk

The carrying amount of the financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	Carrying amount	
	Year ended March 31, 2013	Year ended March 31, 2012
Restricted assets	\$ 38,901,988	\$ 38,033,691
Receivables	953,544	957,332
Cash	659,256	528,556
	<hr/>	<hr/>
	\$ 40,514,788	\$ 39,519,579

The maximum exposure to credit risk for receivables at the reporting date by type of counterpart is outlined in note 5.

# HIGHWAY 104 WESTERN ALIGNMENT CORPORATION

Notes to Financial Statements (continued)

Year ended March 31, 2013

---

## 13. Financial risk management (continued)

The aging of receivables at the reporting date was:

	2013	2012
Not past due	\$ 903,700	\$ 928,408
Past due 30-60	7,759	7,745
Past due 60-90	24,701	17,384
Over 90 days	17,384	3,795
	<hr/>	<hr/>
	\$ 953,544	\$ 957,332

There is no allowance for impairment in respect to receivables and no write offs of receivable balances within the past three fiscal years. The Corporation has receivables with reputable organizations and therefore believes there is no exposure to credit risk.

Restricted asset investments consist mainly of short-term money market deposits. The Corporation has deposited these investments with reputable Canadian financial institutions, from which management believes the risk of loss is remote.

The Corporation's cash is held with a top tier commercial Canadian bank.

### Liquidity risk

Liquidity risk is the risk that the Corporation will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Corporation's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Corporations' reputation.

Typically the Corporation ensures that it has sufficient cash and investments on demand to meet expected operational expenses for a period in excess of 365 days, including the servicing of financial obligations; this excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters.

### Interest rate risk

The Corporation is not exposed to interest rate risk on its long-term debt as it bears interest at a fixed rate. Interest rate risk on cash flows associated with investments and cash fluctuate due to changes in market interest rates. The Corporation manages this risk exposure by using a mix of fixed and variable rate investments.

Notes to Financial Statements (continued)

Year ended March 31, 2013

## 14. Financial instruments

Fair value versus carrying amounts

The fair value of financial assets and liabilities, together with the carrying amounts shown in the Statement of Financial Position are as follows:

		March 31, 2013		March 31, 2012	
	Note	Carrying amount	Fair value	Carrying amount	Fair value
Assets carried at fair value:					
Restricted assets	6	\$38,901,988	\$38,901,988	\$38,033,691	\$38,033,691
Receivables	5	953,544	953,544	957,332	957,332
Cash		659,256	659,256	528,556	528,556
Liabilities carried at amortized cost:					
Secured bond issues	9	50,368,507	84,525,100	57,186,589	88,798,393
Trade and other payables	8	1,684,524	1,684,524	555,222	555,222

All the Corporation's financial instruments are classified as Level 1 and there have been no transfers between the levels within the year. The different levels have been defined as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

## 15. Capital commitments

During the year, the Corporation entered into a contract to purchase property, plant and equipment for \$1,074,660.

## 16. Related party transactions

Included in these financial statements are transactions with various Crown corporations, ministries, agencies, boards and commissions related to the Corporation by virtue of common control by the Government of Nova Scotia (the Corporation's controlling shareholder)

The Corporation has applied the modified disclosure requirements under IAS 24, Related Party Disclosures, which exempt government-related entities from providing all of the disclosures about related party transactions with government or other government-related entities.

All other transactions with parties under the control of the government are routine operating transactions carried out as part of the Corporation's normal day-to-day operations. These routine transactions are individually insignificant and include maintenance services, enforcement, costs, purchases of inventory and property, plant and equipment. Collectively the transactions increase enforcement costs by \$60,000 (2012 - \$60,000), maintenance services by \$1,185,631 (2012 - \$1,163,740), increase inventory by \$25,785 (2012 - \$15,060), and increase property, plant and equipment by \$94,560 (2012 - \$35,000).
